Probably there isn't been any greater battle than the attacks on meat and this has been the center of various studies by various worldwide authorities of all kinds of subjects. It seems like when the combatants want to hire an expert they operate along the same lines a criminal who wants to avoid payment for his crime by claiming he or she was mentally incompetent or a victim of society one way or another. You want the psychiatrist available and you pick out one that will give the right answer according to your needs.

No sooner had the polysaturated fats producers dug up their experts to outlaw saturated fats in meat, than the meat people produced equally brilliant scientists who could positively prove beyond a shadow of doubt that the polysaturated fats was just peddling a new kind of snake oil. As a matter of fact only recently the Meat Board came up with a Dr. Joseph Vitale, nutrition pathologist at Boston University School of Medicine, who stated that cancer patients appeared to lose natural defenses to the disease when placed on diets in which polysaturated fats comprised 20% of the daily intake of calories. He also reported that patients who were switched to saturated fats and only 8% or 9% polysaturated, regained their previous state of immune competency.

You can come up with shoals of experts that will prove meat will kill you, denigrate a door nail, and an equal number of experts that will tell you they have never seen proof of that kind stuff.

We have the Govt. spending millions of dollars trying to make school kids eat what they think is good for them, like vegetables, etc., and any jackass out to know that by the time a kid gets into school his eating habits are pretty well established and trying to change 'em is a lost cause. You can take snakes, fast foods, etc., away while they are incarcerated in the school house, but the minute school is out, so is the stuph th' kids don't like.

It does seem about time that the matter of diet was kicked outta the political arena and left to the scientific arena and food addicts returned to the sidelines where they will no longer waste our taxes trying to convince you and me they should have the almighty right to take the food we like out of our mouths. The diet goals of Congress and the Burroughs are about as far off the mark as most of the things they try to manage, so why not let us dig our graves with our teeth if we want 'em? Don't the Constitution assure us the right of pursuit of happiness?

Ever thine,

The Editor.

P.S. Uncle Dunk announced a new policy. When anybody wants to talk politics he's gonna make 'em show proof they voted first. Them that didn't vote out to set down and shut up. Dunk says, Dunk says the favorable reaction to President Carter's financial maneuvers last week seem to point from the fact he finally made a move, other than just talkin'. Even if he does something wrong, folks finger, thank the Lord he finally did SOMETHING! Dunk claims that there has never been a better example of the inmates running the asylum than them African countries that have been liberated and left to establish democratic or socialist governments on their own. The once Dark Continent is aflame almost end to end and poverty and misery seems to be on the increase as the natives go after each other's fangs and claws. — Thersall, Brothers

that his coarseness with these groups was merely political window dressing. Not so.

Any doubts that farmers or ranchers may have had about whether the President would sacrifice them in favor of low food prices was dispelled in the Saturday Slaughter when he not only vetoed the new Meat Import Bill because it did not give him authority to again upon the flood gates for furin beef on a political whim, instead of on the basis of Economic Facts, was a round-house blow to the meat industry in general and the beef industry in particular.

However, this was just for openers. Carter followed up with the announcement that he intended to keep grain farmers noses to the grindstone by holding the line on present production control measures. He rubbed some additional salt in the farmers' wounds when he allowed as how it was his intention to hold feed grain prices to a 5% advance over the next two years and of that only 1% would come between now and next October.

The fact that Labor will be allowed 7% increases in wages and benefits and prices will be allowed to rise by 5% to 6.5% next year effectively puts agriculture "in its place." Right at the end of the line and lowest on the totem pole.

Natchery, the Agricultural Community is madder than a wet hen from one end to the other and we notice where the American Agriculture Movement has suggested a bumper sticker campaign whereby the message "Dump Carter in 1980" would adorn bumpers of cars and trucks throughout rural America.

Texas Sen. Bentsen announced immediately that he would re-introduce the Meat Import Bill with its counter-cyclical features as soon as Congress convenes. Irate Don King, general manager of the Texas & Southwestern Cattle Raisers, was quoted as saying Carter would not have had the guts to veto the bill with Congress in session. Odds are that he will get that chance fairly early in 1979. It is noteworthy that the bill passed with room to spare to override a veto and from the appearance of the New Congress Jimmy Carter's job appears likely to be even tougher than in the past couple of years.

First glimpse of the election results

Indicates not only another turn to the middle of the road, but also that there will be another class of Congressional Freshmen who will be independent as a haw on ice and will pay less attention to party lines and the dictates of the one we smugly refer to as Elder Statesman in the Congress.

We would sure hate to miss any of the Action that's coming up.

Ever thine,  
The Edittar.

P. S. Uncle Dunk figures the most astute statement concerning the stunning results on the election in Texas came from Texas State Teachers Assn. President Cecil Russell. She allowed as how the Teachers had lost only six races in which they endorsed candidates, but when two of that six were John Hiller Governor and Bob Krueger for Senate she says "It's like winning all the battles and losing the war". Dunk figures if Jimmy Carter is serious about trying to save the Govt some money he should take a meat axe to the Government Printing Office. It is only the largest publishing house in the whole world and some of the stuph they put out is worse than useless or pure propaganda. Dunk notes that Texas Con-

## Beef Bill Vetted

The beef-supply situation, which has caused prices to soar. Earlier this year, Carter allowed about 200 million pounds of added foreign beef into the U. S., but the move will have only a few cents off expected hamburger price increases.

However, the veto is symbolically important because the White House feared that by curbing its power to increase imports — regardless how slight they are — the measure would deprive it of an important psychological weapon in the anti-inflation drive. Also, White House officials worried that the bill could damage relations with such beef-exporting nations as Australia, Argentina, and New Zealand.

The President said he would support a bill next year containing similar auto-troller Bob Bullock says the State will chalk up a surplus of \$2.60 Billion and if you want to see the proverbial snowball in hell disappear, just watch this money when the New Legislature convenes in January! — Thassall, Brothers!

# BRANGUS SIRE BLACK BALDIES

The  
Feeder's  
Choice

**B**rangus sired Black Baldies are in strong demand by feeders and bring top dollar for you!

Black Baldies are an ideal feeder animal. Ask any commercial cowman about the great calves with "a little ear". Medium-sized at birth, they make calving easy for any type of cow. They gain quickly on feed or forage, and average 75 to 100 pounds heavier at weaning than English breeds.

Brangus feeders mean fewer problems for the operator because they are adaptable to climatic extremes and are pest and disease resistant. But most important, Brangus feeders are consistently PROFITABLE. They lay down internal fat early and finish early with enough marbling to grade choice. Brangus calves are preferred — by stockers, feeders, packers, and consumers. If you want PROFIT, you need BRANGUS!

For information about scheduled events, upcoming sales, and sale catalogs, call collect: Lauren Mayhew, Secretary, Texas Brangus Breeders Association, P.O. Box 570, Sealy, Texas 77474. Tel. (713) 885-3364.

## Our Girl Friday . . .

By ANN SYLER

The single most descriptive word for this fall of 1978 is "UP". All of our Brangus sales are that, and in capital letters as indicated. As I write this (Monday the 13th) we are leaving San Angelo and the Cawley Ranch Bull Sale where we sold 68 bulls for an average of \$1417. This is exactly \$725.00 per head over last year. The sale is an annual event of several years standing with Ray Moody and Clayton Williams always participating as guest consignors. Only one bull in the whole offering was a 2 year old (everything else younger) and the top price was \$2800.00, so you can see that the sale held steady for its entirety with no extreme highs or lows.

On November 4th we were in Conway, Arkansas for the annual sale of the Arkansas Brangus Breeders Association. Their sale averages told the

same story: overall average on 86 lots was \$1898.00 (up by \$707.00 per head over last year), female average up by \$688.00 and bulls up by \$946.00. A complete report is printed in this issue.

October 28th was the second Cawley Ranch Bull Sale at Hornley, Oklahoma, held jointly by J. P. Stephenson Ranch of Ardmore, Brady Ranch, Ardmore, Diamond N Cattle Co., Welch, Oklahoma & Blue Ridge, Texas, and Regal Land & Cattle Co., Dadeville, MO. We sold 69 bulls both years, 1978 average \$1392.00; 1977 average \$977.00. High selling bull of this sale was \$2,000, again reflecting how steady the price was all the way through.

I saw one of the most clever and imaginative sights recently on the road between Mineola and Sulphur Springs, Texas. I hope I can describe it well enough for you to get the picture. Usually as we drive I have my head down (as now) doing book work of some kind, but this particular day I was doing the driving. Here was an oil well pumpjack, on top of it, about in the center, sat a very large wooden cowboy in full regalia and painted very brightly in his hand was a rope, which extended to the front of the pump, making the reins. Now if you will concentrate and recall how a pump is shaped, at one end of it a piece extends down, rather like the shape of a horse's head (at least, that's what this clever person who constructed this saw in it). Well, there were eyes, ears and a mouth painted here, with the rope, reins connected to a bit, so when this well is pumping in its sawsaw movement this cowboy is entertaining all passers-by riding a bucking brand! It's worth a drive down this road if you're ever in the area.

And I'd like to be one of the first to announce the Billy Harries are grand-parents of twin girls!

Hope to see lots of you in Kansas City this weekend for the National Show of Merit, the large National Junior Show and, of course, the annual Brangus of America Association "Black Diamond" sale.

And don't forget the 19th Annual Texas Association Sealy Range Bull Sale on Saturday, Dec. 2nd, Sealy, Texas. Incidentally, to some of you who were pondering whether to go to the A&M-Texas game that day or to the Sealy Sale, Matt says it really took some talk and convincing on his part, but the TV networks and schools involved finally saw the wisdom of his arguments and this game will be played Friday night instead, and will be televised!

## Cawley Brangus Bulls Avg. \$1,417

San Angelo — The Cawley Ranch Brangus bull sale Nov. 13 grossed \$95,875 on 68 head to average \$1,417. The cattle sold to Texas and New Mexico buyers. The sale was managed by Syler Sales Management, Inc.

Siola Keane of Sonora, with a bid of \$2,800, took home the high selling bull of the Third Annual Cawley Ranch Brangus Bull Sale at Producers Livestock Auction.

The youngster, Cawley's Concho 6/7, was calved March 1, 1977, and had a 295-day weaning weight of 835 pounds. He is by Brink's Concho 986/2 and out of Miss Rocky Lady 3/1. The bull had a 140-day test gain per day of 4.0 and at differences between male & female & one opinion was that the differences exist only in vocabulary. You never hear a woman called a "female chauvinist" now.

Top volume buyer at the sale was Vernon Cook of Houston. Cook purchased the storm of feverish bidding, successfully buying 15 head of the bulls. Second high buyer of the sale was a veteran Schleicher County rancher, Cecil Meador. Meador set the bid and bought seven head in the sale.

Other area buyers in the sale included Los Ninos Inc., Marfa; Riley J. Starling, Jay B. Horton, Midland; and (CONT. ON PAGE 14)

The annual membership meeting of the North American Limousin Foundation and National Limousin Futurity will be held at Houston during the 1980 Houston Livestock Show & Rodeo.

Gregg Martin, Floyd McGowan, Hayes Mitchell, Ken Holloway, Carl Detering Jr. and Willard Pfleger recently met with officials of the Houston Stock Show and made plans for the futurity and national meeting.

Pfleger said this could be one of the largest gatherings of Limousin breeders that Texas will see for some time.

start herds of their own with these animals, while others make their way to the top hater sales. Rocky Brashers, Seury-Rosser FFA Chapter, had the second high selling female at the recent Premier Prestige sale at Dallas. The heifer was purchased by Shelton Ranches, Kerrville. It wouldn't surprise me if she continued her winning ways with the Shelton Ranches show string. Another recent top selling 4H project was Dana Lee Cuddy's bull that sold in the Mid-America S. G. Sale at Poplar Bluff, Mo., to Mel Caldwell's Crooked Nail Ranch, Gerald, Mo., for \$5,700.00. Dana is from Grain Valley, Mo.

Selling heifers as club projects is an excellent means of getting your cattle before the public. If you have some show quality heifers and don't show yourself, contact your local County Agent and ask teachers. Chances are they have a boy or girl in mind that can help you promote your cattle. Just be sure you put the "right kind" out and at a price the kids can live with. It will be the best investment you can make in your herd.

Recently S.G.B.I. sent out a questionnaire to everyone that participated in the last two National Junior Heifer Shows. It was also published in the Santa Gertrudis Journal. If you have not already filled it out, please do so. They need your thoughts on how to improve these shows. Questions pertain to location, time of year and extra curricular activities. Your opinion regarding a three man judging system is also solicited. The last two national shows have used this system with varying responses. I, for one, am not in favor of it. It is my observation that you get a lot of compromising and too much deviation in type. I favor selecting a qualified judge and letting him (or her) call the shots.

Kevin Chiles of Cotulla, Tx., was the recipient of the Robert R. Shelton Endowed Santa Gertrudis Scholarship at Texas A & M. The scholarship provides a minimum annual fund of \$1,200 to a student enrolled in the College of Agriculture at Texas A & M. Kevin was selected because of academic achievements, need, and Santa Gertrudis related activities.

breed originated with Joe Marchman's enrollment of two females at Rio Vista Farms, for embryo transplants. These cows will be joined by two other Marchman ranch females when their fertility cycle becomes conducive. So far as I know, these two cows are the first Santa Gertrudis cows to be donor cows for a transplant. When you consider the fact that most cows will only give you ten calves in a lifetime, (if you're lucky) this becomes an excellent way to stretch production of your top cows. Realistic figures are ten to twenty calves per year out of one cow. Talk about making genetic improvement in a hurry! One of the cows Joe enrolled is a double bred "Tomado" female who has consistently produced show champions. The other cow, weighing over 1900 lbs. at three years of age, came from Doyle May's show herd. Plans are to inseminate them with Jomar 597/4 semen and transplant the ova into recipient cows.

Another cow that is being considered for use in this program is the Robert

Sabinsko cow that produced the twelve times grand champion cow, "Sabinsko's Starlet 603".

El Collina Ranch is also planning to enroll cows in the program. That would be a sight to see - twenty animals, within four months of each other in age, all eligible for the produce of dam and get of sire award.

See you down the road...

## Texas Polled Hereford NEWS

By NORMAN CABANISS  
TPHA Secretary-Manager

As Thanksgiving Day approaches, we in the Polled Hereford business can count many things for which to give thanks.

Among those is the way Polled Herefords have been selling this fall as shown by recent sale averages: Fred and Bertha Alford's Flying A Ranch State Fair Spectacular Oct. 7 with a \$1,225 average with the top individual at \$3,600; Bill Miller, owner, and Robbie Graves, manager, of the Chisholm Trail Ranch at Rhame, in their Oct. 24 sale which averaged \$508 on 91 lots with a top of \$2,000 attesting to the uniform quality of their offering; Bill and Pat Yowell's Rocking Y at Killeen that scored a barn-burner with 68 lots averaging \$395 and a top of \$2,100 again reflecting overall quality of the offering; and Central Texas Polled Hereford Association's average of \$887 on 38 lots which was the top average ever for this sale at Clifton, \$41 higher than the old record of \$846 set in 1962. Thanks, too, for the many new breeders getting into the Polled Hereford business who helped to set these good averages.

Equally hearty thanks can be given for the tremendous job juniors are doing in the Polled Hereford ranks, such as Mike Smith, 18, son of Mrs. and Mrs. Dan Smith of Canton, who won the Texas Polled Hereford trophy at the Van Zandt County Fair with a heifer from the herd he's starting, winning over 18 other entries in the Polled show; J. L. Bessley, III, of Hawley, who showed the grand champion heifer in the Texas State Fair and Ann Lynn Ellis of Cleburne for exhibiting the reserve champion; and the six TPHA members who walked off with six of the eight heifer class winners and had the cham-

**Fields Named WTPHA President; Assn. To Become More Active**

Wallace Fields of Shamrock was elected president of West Texas Polled Hereford Assn. in a meeting at the West Texas Fair and Polled Hereford Show in Abilene recently.

Serving with Fields as vice president is Jim Gill, Coleman, and Jeanne Abbey, Coleman, secretary-treasurer.

New board members elected were: Larry Flowers, Muleshoe; Frankie Sorrell, Haskell; Joe Dan Weedon, Brownwood; Faye Smith, Lorraine; and Charlie Abbey, Coleman.

Fields has initiated an up-grading program for WTPHA with plans being made for area meetings to be set up by area directors to cover membership and sales promotion; better cooperation with the West Texas Fair Assn.; a better West Texas Tour or area Show-and-Tell Day; and promotion of a WTPHA production consignment sale tentatively set for March 17, 1979, at the Bosley Ranch sale barn at Hawley.

Someone said Congress is considering a new law to legalize graft.

**Chisholm Trail Polled Herefords Average \$806**

Rhame, Texas — Bill Miller of Fort Worth, owner, and Robbie Graves, manager, of the Chisholm Trail Polled Hereford Ranch near here hosted their fall production sale Oct. 24 to the highly successful average of \$806 on 81 lots for a gross of \$65,285. Eddie Sims of National Cattle Services at Lawton, Okla., was auctioneer.

The 62 bulls grossed \$45,775 for an average of \$735 and 19 females \$19,510 for an average of \$1,027.

Byram Polled Herefords of Port Arthur paid the sale's top price of \$2,000 for the bull CTR Victor 144 237, calving March 18, 1977. Greenhill Farm of Brenham paid \$1,650 for the Aug. 9, 1976 BBR Victor 1303; S. D. Hornady, Widdowson, paid \$1,250 for CTR Reva R780, born Dec. 8, 1976, and \$1,150 for CTR Reva R711, born Dec. 7, 1976.

Williams Ranch, Jacksonville, one of the volume buyers, participated in purchase of two of the top selling female lots, buying CTR Anxiety lass 807, a cow, for \$800, with her heifer calf going to Bob Watson of Keller for \$600; and

## Black Maine-Anjou Assn. Is Formed

Standing left to right are Dr. Jack Richey, Associate Consultant and Cattle Breeding Specialist; Stanton Brown, President of the A.B.M.A.A.; and Ray Strickland, Executive Secretary.

Dallas, TX — The increasing popularity of the three-eighths Maine-Anjou feeder calf in the United States has prompted the formation of the American Black Maine-Anjou Association (ABMAA) in Dallas, Texas, according to Stanton Brown, President of the newly formed organization. Rules and by-laws of the Association have been written to aid not only the purebred breeder of Black Maine-Anjou cattle, but the commercial breeder as well, a situation that is uncommon to most breed associations.

Principal offices of the ABMAA will be housed at 4228 North Central Expressway, Dallas, Texas 75208.

The Association will keep a full and complete set of herd books of the breed, sex, date of birth, owner, sire and dam of every Black Maine-Anjou offered for registry and of all subsequent transfers of ownership of animals so registered. The herd books will be known as the "Black Maine-Anjou Registry" and will designate the ABMAA pureblood as 75% Maine-Anjou and 25% Angus or Brangus. Purebred bulls of this percentage when used in commercial herds will yield a three-eighths Maine-Anjou feeder calf.

Appropriations of \$100,000 in pre-paid registration fees have been made for the association's first year operating expense.

A multiple sire program and fire-branding identification are built into the association's rules and bylaws for the ease of breeding and identifying Black Maine-Anjou cattle — the new breed that is worth a premium.
